

The heatmap visualizes the 'Share of the top 1%' over 8 quarters. The grid is 12 rows high and 8 columns wide. The columns are labeled 'Quarters' from 1 to 8. The rows are unlabeled but represent different entities or time points. The color coding indicates different levels of the share: blue for low, red for high, light blue for medium-low, and light red for medium-high. The transition from blue to red occurs at Quarter 4, with a single red cell at the top of Quarter 4. The transition from light blue to light red occurs at Quarter 5, with a single light red cell at the top of Quarter 5. The transition from light blue to light red occurs at Quarter 6, with a single light red cell at the top of Quarter 6. The transition from light blue to light red occurs at Quarter 7, with a single light red cell at the top of Quarter 7. The transition from light blue to light red occurs at Quarter 8, with a single light red cell at the top of Quarter 8.
